WHO WE ARE

Established in January of 2000, Granite Data Solutions is a California Certified, Small and Disabled Veteran Owned Business Enterprise specializing in Client Lifecycle Management serving State, Local, K-12, Higher Education, Commercial and Federal customers.

WHAT WE DO

Most "Value Added Resellers" focus on the ever-changing world of Technology without any regard for implementation strategy. The GDS focus;

We optimize the business outcomes through a balance of people, process, and technology.

VALUE ADDED SERVICES

Granite Data Solutions is a "Value-Added" Reseller providing a wide variety of IT Services that are fully customizable. With over 20 years of experience and mind-share of successfully deploying 650,000+ devices, our partnership can assist your organization with;

- Supply-Chain Deployment
- Imaging
- Audit-Ready Asset Management
- Installation, Take Back / Recycling Services, STD152 Compliant
- Project Management and Oversight

Granite Data Solutions achieves 70% or greater disabled worker participation on IT deployment projects.
